About **Proyeco**

We have been providing for 35 years a wide range of integrated services in Architecture, Installations, Urban Planning, Development and Promotion, Construction, Consultancy, Project Management, Energies and Environment including Civil and Building projects.

We base our work on the ISO 9001, ISO 14001, ISO 45001 and UNE 166002 standards, in which we are certified. Our constant technological innovation has allowed us to obtain the INNOVATIVE SME Seal from the Ministry of Science and Innovation of Spain.

In addition, we have voluntarily adhered to the EMAS III regulations and to "The Global Compact" of the United Nations.

Mission & Values

Born with the vocation of customer´s service

Corporate Responsibility

OUR COMMITMENT

Our commitment: Social Responsibility,
Quality Management, the Environment
and Safety and Health at Work

ONU Global Compact

As part of our corporate culture, we have been renewing our commitment to the Global Compact annually, since 2011. This commitment implies our support of the ten principles related to human rights, workplace, environment, and fight against corruption, and spreading it among all its stakeholders, customers, suppliers, and workers, in addition, to collaborate in social development projects, with different foundations and administrations.

Sustainable Developments Goals

Our commitment to sustainability is reflected by achieving the Sustainable Development Goals (SDG). These United Nations objectives, require the active involvement of companies, and we, through our projects and CSR activities, contribute to key objectives related to gender equality (n° 5), water (n° 6), energy (n° 7), sustainable communities (n° 11) and ecosystem (n° 15).

Business Parks

PROYECO is also a specialist in New Construction, Reform, Rehabilitation, Expansion and Conditioning of Business Parks and Offices.

For PROYECO the workspace has to be conceived as a comfortable, luminous and ergonomic room, trying to cover the maximum needs in this place where a great part of the day takes place. Our buildings and spaces try to cover these needs and any other specific one that the client may mark, adapting the design to the circumstances of each case.

In this sense we provide added value to our services with technical advice to our customers, which together with the experience gained, culminates with a Quality Project carried out at a cost adjusted to the needs.
