

Institutional Centers

# About **Proyeco**

We have been providing for 35 years a wide range of integrated services in Architecture, Installations, Urban Planning, Development and Promotion, Construction, Consultancy, Project Management, Energies and Environment including Civil and Building projects.

We base our work on the ISO 9001, ISO 14001, ISO 45001 and UNE 166002 standards, in which we are certified. Our constant technological innovation has allowed us to obtain the INNOVATIVE SME Seal from the Ministry of Science and Innovation of Spain.

In addition, we have voluntarily adhered to the EMAS III regulations and to "The Global Compact" of the United Nations.

# Mission & Values

## **Born with the vocation of customer´s service**

We provide engineering and architectural services to our clients, with a practical and functional approach adapted to the project needs.

## **OUR MISSION**

To make your project ours  
Growing while maintaining our essence and integrating borders is our priority

We offer our clients the global vision they need, and we provide the best quality service thanks to our teamwork, technical expertise, global vision and excellent client relationships.

## **OUR VALUES**

Commitment, integrity & sustainability  
These three values are the basis of our company's philosophy. They are present in our daily life as we provide quality services and achieve excellence with our customers, suppliers, and employees.

# Corporate Responsibility

## OUR COMMITMENT

Our commitment: Social Responsibility,  
Quality Management, the Environment  
and Safety and Health at Work

## ONU Global Compact

As part of our corporate culture, we have been renewing our commitment to the Global Compact annually, since 2011. This commitment implies our support of the ten principles related to human rights, workplace, environment, and fight against corruption, and spreading it among all its stakeholders, customers, suppliers, and workers, in addition, to collaborate in social development projects, with different foundations and administrations.

## Sustainable Developments Goals

Our commitment to sustainability is reflected by achieving the Sustainable Development Goals (SDG). These United Nations objectives, require the active involvement of companies, and we, through our projects and CSR activities, contribute to key objectives related to gender equality (n° 5), water (n° 6), energy (n° 7), sustainable communities (n° 11) and ecosystem (n° 15).

# Institutional Centers

The management of the design and construction of different Institutional Centers has given PROYECO the "know-how" to face this type of projects from experience and knowledge, in which representativeness as an icon prevails , without forgetting the feeling of unity and harmony.

The importance of the relationship between users and buildings should be materialized in a proper organization and proportion of indoor and outdoor spaces, without neglecting the socio-environmental conditions that affect the project.

Among the Institutional Centers in which we have participated we can highlight Educational and Sports Centers, such as the Padre Arrupe Foundation in El Salvador or the Mariquina and Caldera sports centers in Chile, Public and Private Institutions, such as the Bocas del Toro or Panama Governorate buildings, Penitentiary Centers such as the modules of La Joya and La Joyita in Panama and Banks and Savings

# Padre Arrupe Foundation
