Transport

# About **Proyeco**

We have been providing for 35 years a wide range of integrated services in Architecture, Installations, Urban Planning, Development and Promotion, Construction, Consultancy, Project Management, Energies and Environment including Civil and Building projects.

We base our work on the ISO 9001, ISO 14001, ISO 45001 and UNE 166002 standards, in which we are certified. Our constant technological innovation has allowed us to obtain the INNOVATIVE SME Seal from the Ministry of Science and Innovation of Spain.

In addition, we have voluntarily adhered to the EMAS III regulations and to "The Global Compact" of the United Nations.

# Mission & Values

## **Born with the vocation of customer´s service**

We provide engineering and architectural services to our clients, with a practical and functional approach adapted to the project needs.

## **OUR MISSION**

To make your project ours  
Growing while maintaining our essence and integrating borders is our priority

We offer our clients the global vision they need, and we provide the best quality service thanks to our teamwork, technical expertise, global vision and excellent client relationships.

## **OUR VALUES**

Commitment, integrity & sustainability  
These three values are the basis of our company's philosophy. They are present in our daily life as we provide quality services and achieve excellence with our customers, suppliers, and employees.

# Corporate Responsibility

## OUR COMMITMENT

Our commitment: Social Responsibility,  
Quality Management, the Environment  
and Safety and Health at Work

## ONU Global Compact

As part of our corporate culture, we have been renewing our commitment to the Global Compact annually, since 2011. This commitment implies our support of the ten principles related to human rights, workplace, environment, and fight against corruption, and spreading it among all its stakeholders, customers, suppliers, and workers, in addition, to collaborate in social development projects, with different foundations and administrations.

## Sustainable Developments Goals

Our commitment to sustainability is reflected by achieving the Sustainable Development Goals (SDG). These United Nations objectives, require the active involvement of companies, and we, through our projects and CSR activities, contribute to key objectives related to gender equality (n° 5), water (n° 6), energy (n° 7), sustainable communities (n° 11) and ecosystem (n° 15).

# Transport

The transport infrastructure projects developed by PROYECO include all the integral services from the first sketches to the start-up of the infrastructures, specializing in different types to achieve a total adaptation to the needs of each project.

PROYECO is characterized for sharing, in all the activities it develops, the same vocation of service that, together with its basic pillars constituted by experience, trust, profitability and commitment, allows it to contribute value, always for the sake of carrying out Quality Projects that meet the needs and expectations of their customers.

Our works include Rail Works, such as the Itsmo Train in Mexico or the Panama metro lines, Port Works, such as the Amador Cruise Terminal in Panama or the study of Puerto Chimbote in Peru, Vials and Bridges, such as bridges of Pedregal-Gonzalillo or San Fernando, Concessions such as the North and South Corridors of Panama and Works in Airports, such as Tocumen or Panama Pacifico.
